

DOMOPS Kit

PowerFlare®

Everything Needed to Manage Emergency Scene Lighting

Developed specifically to assist our nation's first responders, both military and civilian, to manage large chaotic scenes, the PowerFlare Domestic Operations (DOMOPS) Kit includes enough assorted safety beacons to define triage and decon areas, temporary landing zones, paths to safety for civilians, closed roads, as well as covert marking of vehicles and places.

The DOMOPS Kit contains the following:

FOUR Triage Marker Lights with heavy duty magnets for easy mounting on flag poles or other raised metallic surfaces:

- One red LED beacon in orange case
- One amber LED beacon in yellow case
- One green LED beacon in OD green case
- One blue LED beacon in blue case (for the on-site morgue)

SIX temporary LZ Marking Lights, enough to quickly create many of the most common landing zone configurations:

- Four red LED beacon in orange case
- One white LED beacon in tan case
- One blue LED beacon in blue case

TWO infrared LED Beacons in black case, with HD magnets, for covertly marking areas/vehicles

TWO green LED beacons in OD green case, with HD magnets, for marking Command Posts/Vehicles

FIVE red LED Beacons in orange case for marking closed roads, "no-go" areas, or traffic control

FIVE amber LED Beacons in yellow case for marking paths to safety for civilians (can also be used for traffic control)

- ◇ 10 user-selectable flash modes including "S-O-S" and Full-On.
- ◇ Beacons run up to 150 hours on a replaceable CR123 battery with a 10 year shelf life.
- ◇ Each PowerFlare Beacon is waterproof, floats, and weighs less than 7 ounces. Diameter 4.25".
- ◇ Kit weighs 18.5 lbs.

Featuring the lightweight, watertight Pelican Storm Case® which is extremely tough and guaranteed by Pelican for life. Also included in the kit are 24 spare CR-123 lithium batteries and 6 small carabineers to hang beacons from fences, vehicles, or tree branches. The two orange carry bags, as seen above, are also included.
